Abstract (Basic): SU 1837887 A
        Arterial blood pressure can be reduced by ingesting infusions made
    from a herbal mixt. comprising (g): Leonorus (400); calendula (200);
    valerian (200); mint (200); hops (100); clover (100); tansy (200);
    hawthorn (400); nettle (100); yarrow (100); St. John's Wort (50);
    origanum (100) and linseed (100).
        Infusions are made by adding 1-2 teaspoons of the mixt. to boiling
    water and allowing to stand for 10 min..
```

USE - The mixt. is used for treating hypertensive disorders. ADVANTAGE - The mixt. reduces arterial pressure and possesses

antimicrobial, antibacterial and antiviral effects.
